

Military Embedded Systems 2020 Content Calendar					Due Dates			
					Editorial		Ads Close	
Issue	Special Report (staff written)	Mil Tech Trends (staff written and contributed)	Industry Spotlight (Staff written and contributed)	Trade Shows, Webcasts, Promotions, and Bonus Coverage	Abstracts	Finished Draft	Print	E-letter
January/February Print	RADAR/EW GUIDE			AFCEA West Webcast: CSFC: Protecting Classified, Top Secret, and Secret Data Via Commercial Solutions	11/22/19	12/18/19	1/7	1/1
January E-letter	Radar Design Trends	Signal Processing Trends in Radar, Sonar, and Electronic Warfare	RF and Microwave in Electronic Warfare Systems					
February E-letter	Unsolicited articles are welcomed. Please contact: lisa.daigle@opensysmedia.com			Webcast: FACE Technical Standard, Solving Portability and Affordability Challenges in Avionics	-	-	-	2/1
March Print	AVIONICS ISSUE			Aerospace Tech Week, Sea, Air Space Webcast: Solving Big Data Challenges Through Signal Processing and AI Technology	11/23/19	1/15	2/6	3/1
March E-letter	Helicopter Avionics	Certifying COTS Hardware & Software	Reuse Solutions for Military Avionics Systems					
April/May Print	UNMANNED SYSTEMS ISSUE			xPonential, IMS, NIWeek, SOFIC, Eurosatory Webcast: How SOSA Leverages OpenVPX Standards to Enable Interoperability in Radar, EW Systems	1/22	2/14	3/12	4/1
April E-letter	Counter-UAS Technology	Solving Reduced SWaP Challenges in Unmanned Sensor Payloads	Interconnect Technologies for Unmanned Systems					
May E-letter	Unsolicited articles are welcomed. Please contact: lisa.daigle@opensysmedia.com			Webcast: Reducing SWaP-C in Electronic Warfare and Radar Systems	-	-	-	5/1
June Print	DEFENSE MARKET ANALYSIS			NSREC	3/23	4/15	4/30	6/3
June E-letter	Small Sats	Enabling Artificial Intelligence in Military Systems	Enabling COTS in Space Electronics Systems					
July/August Print	Cyber Warfare Technology	Rugged Computing & Thermal Management	Leveraging Big Data for Military Applications	Air Force Association Webcast: Leveraging Artificial Intelligence and Machine Learning for Military Systems	5/12	6/12	6/18	7/1
July E-letter								
August E-letter	Unsolicited articles are welcomed. Please contact: lisa.daigle@opensysmedia.com				-	-	-	8/1
September Print	MILITARY EMBEDDED SYSTEMS RESOURCE GUIDE			AUSA Webcast: Driving The Heat Out of Embedded Military Systems: Reducing Thermals	6/15	7/13	7/30	9/2
September E-letter	Special Report: Shipboard Electronics; Mil Tech Trends: Test and Measurement Trends; Industry Spotlight: Managing Supply Chain, Obsolescence, and Counterfeit Parts; Key Resource Guide Categories Include: Avionics, Communications, Cybersecurity, Electronic Warfare, Embedded Hardware, Embedded Software, Obsolescence/EOL, Radar, Real-Time Operating Systems and Tools, RF & Microwave, Safety Certification							
October Print	Solving Electromagnetic Spectrum (EMS) Challenges	Signal Processing for Electronic Warfare Systems	Enabling Security in Embedded Systems	AOC, IITSEC Webcast: Enabling Open Architectures in Military ISR, Radar, & Electronic Warfare Systems	7/16	8/14	9/3	10/1
October E-letter								
Nov/Dec Print	Leveraging Machine Learning for Military System	Military Power Supplies	Open Standards for Embedded Military Systems	Embedded Tech Trends, AFCEA West Webcast: Unmanned Aircraft and Safety Certification: What To Do	9/8	10/5	10/15	11/1
November E-letter								
December E-letter	Unsolicited articles are welcomed. Please contact: lisa.daigle@opensysmedia.com			Webcast: Navigating Safety Certification Requirements for COTS Hardware and Software	-	-	-	12/1

Editorial Contacts: John McHale, Editorial Director, john.mchale@opensysmedia.com
Lisa Daigle, Assistant Managing Editor, lisa.daigle@opensysmedia.com

Sales/Webcast: Tom Varcie, Sales Director, tom.varcie@opensysmedia.com

Newsletters: The McHale Report - Monthly, Radar/ Electronic Warfare - Monthly, Avionics Design - Monthly, CyberDefense Report - Bimonthly, Military AI - Monthly
